THE LOG-BOOK

The oil steamer W. S. Porter, Captain McDonald, left for Gaviota early this morning. Her long delay was due to the heavy oil which pumped very slowly. It is the first trip to this city made by the Porter for six months.

"Jimmie" Rudden, the wellknown first officer of the Korea, is taken a vacation for a round trip of the big steamer. His place is being filled by First Officer Kitt, who has recently been captain of the steamer City of Panama. Fourth Officer Winkler and Fifth Officer Hansen, are new faces on the Korea also. Captain Sandberg is still on deck, however, as usual.

The W. G. Hall, coming from Kaula, arrived at an early hour this morning. She brought her usual passenger list and cargo of Kaula sugar.

The Oceanic steamer Alameda, with mail and a large list of passengers, is due here early Friday morning. The following wireless message was received from Captain Dowdell last night by Irwin & Company, the vessel's local agents:

"August 10, 1909.
"Alameda, 8 p. m.
"All well. Fine weather. Cargo 1727 tons, 74 cabin, 20 steerage, 101 sacks mail and Wells Fargo Express, 894 miles. Will arrive about seven a. m. Friday."

Captain Fredericksen, of the Hiloian reported last night by wireless that he was 114 miles out, with moderate trade winds and a smooth sea. He reported the Korea ahead at 9:30 p. m.

On her way down from the Coast the Korea sighted the Siberia, Lurline and Hiloian.

The Sheridan will arrive here at about 4 o'clock tomorrow afternoon, staying still Saturday.

So runs the brief and simple story of getting a perfect roof with

REX FLINTKOTE ROOFING

It is made on honor and backed by a firm with a business reputation covering the past 70 years

What Should a Good Roof Do?

Protect from water, cold, heat, sparks and fumes—be laid with economy, and wear without expensive repair.

Unlike shingles, REX Flintkote ROOFING will not blaze up at the first spark—unlike slate, it will not yield to the gale of wind—unlike tar, it will not melt and run—unlike tin, it will not rust nor leak at the first chance.

Unlike them all—it may be laid by any ordinary workman—with a hammer—everything else needed is in the roll.

Unlike them all it is suitable for every kind of farm building.

We have it in stock, and heartily recommend this roofing to all who believe it is economy to pay a fair price for a superior article.
